

Causal inf outline

2024-03-20

Introduction

-It's own thing, a quick intro, not too long Lang 2013- Use this section as a theoretical framework/ Intro Talk about

Legislation

Pairity Laws- Use this is more detail about pairity laws ##Literature-

More detail for paper surrounding mental health/ pairity laws Pairity Laws "Toothless Bill" ##Data and Descriptive Statitistics

Methods

Diff in Diff Matching / IPW with doubly robust estimators Hetero Diff in Diff

Results

Discussion

What does the balance of evidence come up to? It's probably close to Zero the percentage reduction. Do some back of the hand math.

Conclusions

Figures

Checklist for Figures I need.

- *Copy Figure 1 from Lang*
- Table 2 from me
- *Created Table 3*
- FE Table 4
- *First Difference Table 5*
- Matching Regressions *
- Matching Plots *

- Event study PLOTS Not table that's dumb *
- For the CS Did Estimates, it's likely better just to produce graphs of each of the dynamic effects printed out of each regression you run References
